HOT TUB DISCLAIMER AND SAFETY NOTES

*This document must be read before
you make any use of the hot tub..*

1. Always keep the hot tub covered when not in use. This will conserve heat, and prevent any person/animal or debris from falling into the tub.
2. If your hair is long, put it up in a ponytail so as to avoid getting it caught in the filter or drain.
3. The hot tub temperature is set to 38 degrees centigrade. Please do not tamper with the temperature settings. The water temperature should never be above this as this could lead to the body overheating - especially for young children. Children under the age of 4 years old should never use the hot tub, and children under 16 years old must be supervised at all times.
4. Never use electrical devices (including phones, radio, TVs or any other corded devices) in or near the hot tub.
5. CAUTION. Do not use the hot tub lid lifter in high wind conditions. Injury from the hot tub lid cover being blown over and impacting the spa user can occur. Please open the lid halfway and only use half of the hot tub.

5. Avoid drinking alcohol or using drugs in the hot tub. The hot water will amplify and speed the effects of any alcohol or drugs. Alcohol makes you drowsy, and falling asleep in hot water can be very dangerous. In addition to the risk of drowning, your body cannot regulate its temperature as well as when you are asleep, which can lead to serious overheating.

6. Always shower with soap and water before entering the hot tub, in order to remove any lotions etc - people wearing fake tans must not use the hot tub - always shower after using the hot tub in order to remove chlorine etc.

7. Be cautious when using the hot tub during the winter. If the temperature outside the hot tub is below freezing, water splashed over the edge can quickly freeze into slippery ice. Always be careful when exiting.

HEALTH & SAFETY

1. Pregnant women should avoid submerging their stomachs in a hot tub, as the temperature is far too hot for the fetus.

2. If you have heart disease, high blood pressure or diabetes you should check with your doctor before using a hot tub.

3. As with swimming pools, immediately exit and seek shelter if you see lightning or during any other kind of adverse weather.

4. It is strictly forbidden to submerge ones head under water.

THIS HOT TUB IS TREATED WITH CONVENTIONAL CHLORINE BASED SPA AND HOT TUB CHEMICALS. IF YOU ARE ALLERGIC TO CHLORINE OR HAVE REACTED BADLY TO SIMILAR PRODUCTS IN THE PAST THEN YOU MUST NOT USE THIS HOT TUB.

THE OWNER RESERVES THE RIGHT TO TEST THE WATER AT ANY TIME AND ADDRESS ANY SAFETY ISSUES WITH THE WATER QUALITY.

We accept no responsibility for any reactions or illness or injury you might experience following the use of this hot tub.

Any direct damage caused to this hot tub by anyone should be reported to the owners immediately and will have to be charged.

BY READING THIS DISCLAIMER, YOU ARE
